## About Us

With over 35 years of operational experience, SWF Construction Group (SWF) has built a strong reputation in construction and marine services. As a proud Indigenous, family-owned Australian company, we have built our reputation on successfully delivering high quality projects in the marine and government sectors.

We embrace the different cultures that flow within our team and aspire to work for all nations who are traditional custodians of the land on which we operate.

Within our diverse portfolio, we work in government, marine construction, commercial and high-end residential sectors, completing all projects through a collaborative approach with our clients to an impeccable quality standard.

Our marine sector expertise has been created through strategic relationships with leading marine engineers. We ensure that our clients obtain specialised maintenance and servicing for commercial, pleasure, and defence craft vessels.

SWF specialises in high-quality workmanship, successfully finishing each project with a combination of practical construction knowledge and contemporary technology. Our focus on precision, high calibre output, reasonable pricing, amiable staff, and reliability, guarantees a clientele of repeat customers and ongoing recommendations.

SWF provides a safe working environment for our employees, contractors, and customers. Our employees are extensively trained in Safe Work Methods and Risk Assessments and are dedicated to following our Safety Management Plan.

Providing additional opportunities for staff upskilling, we offer employees further education and training, encouraging constant development in their chosen fields.

As an Aboriginal-owned construction business, SWF is committed to conserving the natural environment on worksites. We properly dispose of all waste, oil, and recyclable building materials to conduct operations with minimal environmental impact.

## General and civil construction

With over 35 years of residential and commercial construction experience, SWF has completed projects ranging in size from minor renovations to high-end harbourside residences. We specialise in quality, and high-end craftsmanship, providing clients with the expertise, knowledge, and technology needed to ensure our projects exceed expectations.

Our services range from temporary and protection work to complete construction. Our ability to offer temporary works and site accommodation enables us to manage our operations securely, particularly when they are conducted in active domestic and civil contexts.

Past projects include:

- ▶ Concord Hospital Redevelopment Stage 1, fitout
- ▶ Defence facilities, Garden Island & HMAS Watson
- ▶ Heritage buildings including Bondi Pavilion
- ▶ Ski Lodges, Heidi's Smiggin Holes
- ▶ Numerous office buildings, set up and fitouts
- ▶ Clubs including RMYC Port Hacking
- ▶ Schools including Cronulla High School.

We offer complete builds, extensions, renovations and refurbishments as well as waterfront services. As experienced marine contractors in the Sydney area, SWF takes pride in completing turnkey projects that require construction efficiency and team adaptability. We accommodate all unique circumstances and embrace Australia's harsh coastal conditions to deliver results that exceed client expectations.

## Waterfront construction and maintenance

SWF combines resources with Dick Rowe Marine for marina installation and maintenance to ensure project effectiveness and efficiency. From building to beautifying, SWF can provide the resources to maintain a commercial wharf, through our access to barge hire, marine pile driving, bridge maintenance, wharf construction, diving services and sea walls. We also have access to two 1000m<sup>2</sup> plus yards in the ports of Kurnell, NSW and Airlie Beach, Qld. Available equipment includes:

- ▶ Various sized landing barges
- ▶ Aluminium barges
- ▶ Piling barges
- ▶ 6m Fibreglass tender vessel
- ▶ 52-foot accommodation vessel
- ▶ Six tabletop trucks
- ▶ Various utilities and vans
- ▶ Seven-tonne telehandlers
- ▶ Eight Sea Cat 2C Surveys
- ▶ Five excavators

The portfolio includes some of the most iconic wharves, jetties, and marinas on Australia's east coast. Past projects include:

- ▶ Georges River, St George Motor Boat Club, additional 76 berth marina
- ▶ Airlie Beach area, numerous marinas and piling
- ▶ Port Hacking, Cronulla and Bundeena ferry wharves
- ▶ Port Hacking and Georges River, numerous private waterfront facilities
- ▶ Airlie Beach, sheet piling
- ▶ Whitsundays Council, boat ramp and jetty
- ▶ Cooktown, boat ramp and pontoon
- ▶ Hayman Island, ferry terminal and piling
- ▶ Able Point, marina and Water Police facilities
- ▶ Martha Cove (Victoria), 350m boardwalk
- ▶ Burraneer, major remedial works (structural) to elevated concrete pool
- ▶ Port Hacking, RMYC Port Hacking and Burraneer Bay marinas.

## Salvage

---

Our combined teams have literally 'grown up' on the water. They bring extensive experience in water construction, salvage and mechanicals, understanding the logistics required to undertake salvage works for both private and public entities. This can range from abandoned or submerged vessels and assets to relocation of structures and debris.

SWF provides waterfront construction, clean up, rubbish removal and labour hire. We make waterfront projects accessible and cost-effective by using our own supplies, including a wet and dry barge, excavator, and crane truck/tipper. We can also supply bulker bags and a high-pressure cleaner.

Due to the available marine assets and experienced staff, we can undertake salvage works on behalf of government agencies and private entities.

Our recent work portfolio includes:

- ▶ A major salvage operation, recovering and searching an abandoned drug ship for evidence of narcotics (in conjunction with Birdon in 2018)
- ▶ Salvage of thirty Privately owned Vessels in Port Hacking and Botany Bay (salvaged intact for repairs) 2021
- ▶ Scrapping of three barges on Botany Bay in 2022.

## Vessel maintenance

---

We are able to offer vessel maintenance services to our marine clients thanks to our successful partnerships with Onboard Engineering. Services include repowers, new installation, general maintenance, service and repairs, fault and failure diagnosis and emergency after-hours breakdown services.

SWF's key vessel maintenance partner is an authorised OEM representative across NSW, covering:

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>▶ MAN Marine Engines</li> <li>▶ Twin Disc</li> <li>▶ Sea Keeper</li> <li>▶ Volvo Penta</li> <li>▶ Mercruiser</li> <li>▶ Yanmar</li> <li>▶ CAT Marine</li> <li>▶ Kohler Generators</li> <li>▶ Garmin Marine Electronics.</li> </ul> | <p>Also:</p> <ul style="list-style-type: none"> <li>▶ John Deere,</li> <li>▶ Northern Lights,</li> <li>▶ Seatorque</li> <li>▶ ZF transmission</li> </ul> |
|---|--|

We can supply genuine OEM parts, undertake routine maintenance tasks and identify, diagnose, and repair unexpected faults as they arise. The 1500m<sup>2</sup> workshop and yard at Taren Point is ideally located, enabling the fleet of nine mobile service vehicles to easily supply the metropolitan area and beyond.

SWF also enjoys strong partner relationships with external crane companies. On short notice, we have the connections to lift engines and large transmissions out of vessels, whether dealing with challenging sites, tides or weather conditions.

Together, we have the capacity to maintain a range of commercial vessels including Fast Ferry vessels, Defence vessels, NSW Maritime, and NSW Volunteer Coast Guard vessels.
